About Me

Frontend-focused Web Developer with strong experience in WordPress and GoHighLevel (GHL), delivering high-converting, mobile-first landing pages for marketing agencies. Skilled in building clean, performance-optimized interfaces and aligning design with marketing goals. Proactive, detail-oriented, and comfortable working in fast-paced team environments.

Education

- Advanced Diploma In Software Engineering**
Aptech Computer Education Karachi 2023 - In Progress
Currently pursuing an Advanced Software Engineering course at Aptech, gaining practical knowledge in modern development tools, programming, and software lifecycle best practices.
- KMC Boys Degree College**
Computer Science 2023 - 2024
Completed Intermediate (Computer Science) from KMC Boys Degree College, with a focus on mathematics and computer science fundamentals.

Experience

- Junior Frontened Developer**
MADSGENCY Jan 2025 – Present
Currently leveraging GoHighLevel (GHL) to design and develop high-converting landing pages and marketing funnels, creating responsive, user-friendly interfaces, implementing automation workflows, and optimizing performance for improved user experience and engagement.
- Frontend Developer Intern**
MADSGENCY Oct 2024 – Dec 2024
Completed a practical internship where I worked on GoHighLevel, built client landing pages, used WordPress with custom CSS, and developed skills in funnel building, automation, and CRO.
- Network & Systems Assistant**
IT Zone 2022- 2024
I help ensure smooth communication between systems by setting up networks, fixing issues, and maintaining security. I enjoy learning tech and helping my team with solutions.
